

Reverse Transfers

All WNC students who plan to transfer to a four-year college or university are strongly encouraged to obtain an Associate of Arts or an Associate of Science degree prior to transfer. However, students who transfer before completing a WNC associate degree are encouraged to complete the courses needed to fulfill the requirements remaining for their associate degree at the university or college after transferring. Students may then request to have a transcript sent to WNC that shows completion of those requirements and apply for graduation at WNC degree at that time. Contact Admissions and Records for further information.

Transfer agreements for the University of Nevada, Reno are available on their website:
